Chairman Miles states that the Public Hearing from last month is going to resume. He then asks if there is anyone who wants to speak regarding the Hillcrest Solar Site Plan. The following residents addressed the board: John McGlenn, Susan Storch, Lorin Storch, Mark Rozengota, Andrea Renshaw, Will Vandelinder, Skyler Schmidt, Steve Agan, Rob Agan. After the public voiced their opinions or concerns, Nick Cunha who is working with the property owner, addressed some of their concerns. He stated that they are in compliance with the Solar Law that was established within the Town, he assured the board that the line of sight won't be an eyesore for the residents as trees will be planted to help curb the view and there will also be a vegetation management plan in place.

Mr. Cunha also states that there will be significant tree clearing (cannot be avoided), he is working with Jimmie Joe Carl from the Chemung County Stormwater Coalition on finishing up the Stormwater Pollution Prevention Plan (SWPPP), and finally as far as fire safety is concerned – there is always a chance of fire but Tesla is constantly looking to improve their batteries. Cunha also says that the solar power generated is available to the residents and if they sign up for it they will see a small decrease in their electric bill.

Chairman Miles asks for a motion to close the Public Hearing.

Mr. Cunha states that he will submit more information about the disposal of batteries and the bond will reflect that.
