

Website Announcement:

The health and welfare of our community is our utmost concern. The challenges posed by the Covid-19 virus is requiring us to react based on that concern. Therefore, these are some temporary adjustments we are making, effective immediately:

Services at the Town Hall will be available for residents with the exception of the Town Court.

The Park will remain closed for the time being. That means the baseball and softball programs have been postponed as well. The serious health precaution taken by the schools to close would be negated by allowing the children to gather in our Park. Tennis courts are open.

The Community Center is also closed for the time being. For those of you familiar with the facility, the rooms are not expansive, so even a group of modest size would be in relatively close proximity. The staff will also utilize this time to clean and disinfect the building and perform some repairs.

For County wide information please visit www.chemungcountyny.gov

This is a trying time and there is not always a clear template on how to respond. That being said, we recognize our responsibility to do what we can to protect our employees and residents. The Covid-19 is a challenge to our entire community and calls for all of us to be aware, be patient, and to help our neighbors.

Neil Milliken, Supervisor
Town of Elmira
