

HANDICAP PARKING PERMITS

Any town resident in need of a permanent or temporary parking permit must obtain this from our office. The NYS Department of Motor Vehicles application must be completed and returned to us. Applications are available at our office. Once it has been certified by the doctor's office, return it to our office and you will be issued your permit. Permanent permits are valid for five years. Temporary permits may be issued for up to six months and renewed once for up to an additional six months. A copy of your driver's license must be submitted with each application. If a permit is **lost or stolen**, you may come to our office for a replacement. The replacement permit will be issued after the original permit number is reported to the Police Department, making it immediately non-valid. The replacement permit will retain the original permit's expiration date.
