

# Handicap Parking

Parking permit form <https://dmv.ny.gov/more-info/parking-people-disabilities>

Any town resident in need of a permanent or temporary parking permit is required to have their physician certify their form then bring the completed form to the Town Clerk's office.

Permanent permits are valid for five years. Temporary permits may be issued for up to six months. A copy of your driver's license must be submitted with each application. If a permit is lost or stolen, you may come to our office for a replacement. The replacement permit will be issued after the original permit number is reported to the Police Department, making it immediately non-valid. The replacement permit will retain the original permit's expiration date.
